David L. Narver, Jr. Request for drinking Fountain

September 17, 1953

The following is quoted from J-6, [illegible] 7.1, letter J-19999 dated September 11, 1953, and is forwarded to you for action:

"J-4 has requested that a drinking fountain be installed in the vicinity of their warehouse on Tare (Bldg. 61). In view of the fact that such a facility has not been provided for either the tent and trailer area or the Station 0 area and that the nearest fountain is at a distance of 800 ft. or more in Bldg. 20, it seems desirable that some provision be made for drinking water accessible to all personnel working in this area."
