Dr. John H. Manley, Secretary,
General Advisory Committee, USAEC
Washington, D. C.

Dear Dr. Manley:

The Atomic Energy Commission invites the members of the General Advisory Committee to observe the conduct of experiments during Operation SANDSTONE.

Accommodations for two persons have been set aside for the use of members of the General Advisory Committee and will be reserved for that purpose continuously during the time experiments are in progress.

It is requested that the Committee advise the Commission of those who wish to attend and the times during which they will be present.

Sincerely yours,

Carroll L. Wilson
General Manager
