Dear Mr. Linenberger:

The President has requested the Atomic Energy Commission to convey his commendation to the scientific personnel responsible for the success of the 1948 atomic weapon test program at Eniwetok Atoll.

You have made a significant contribution to the Atomic Energy Commission's weapon development program by your meritorious work in neutron measurements.

Your assistance to other groups in planning and conducting experiments was very valuable and did much to assure an integrated test program.

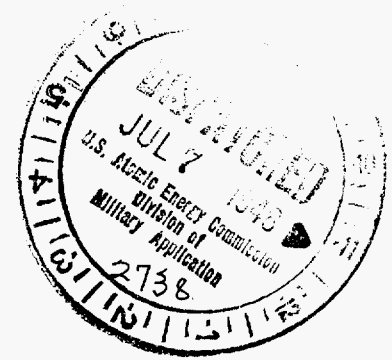

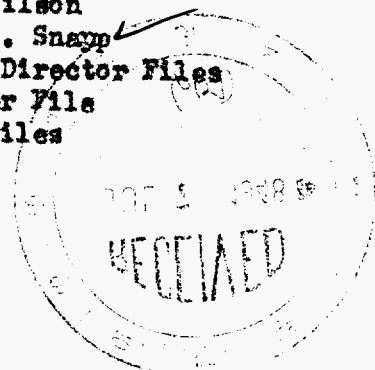

You personally have rendered the nation an outstanding service, and it is my privilege to convey to you, for the Commission, the President's commendation.

Sincerely yours,
