Dear Dr. Ogle:

The President has requested the Atomic Energy Commission to convey his commendation to the scientific personnel responsible for the success of the 1948 atomic weapon test program at Eniwetok Atoll.

You have made a significant contribution to the Atomic Energy Commission's weapon development program by your successful completion of very important neutron experiments.

Your assistance to other groups in planning and conducting experiments was extremely helpful and did much to assure an integrated test program. Your analytical ability and professional skill was demonstrated by your interpretation of experimental data.

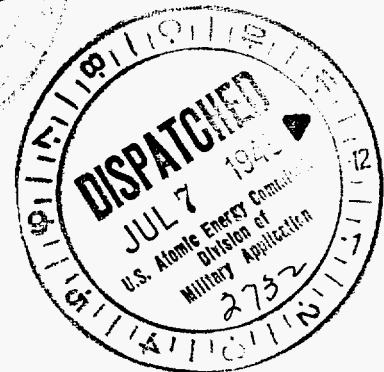

You personally have rendered the nation an outstanding service and it is my privilege to convey to you, for the Commission, the President's commendation.

Sincerely yours,
