[REDACTED]

e. Technical feasibility of conduct of test at a continental site.

f. Radiological hazards resulting from utilization of a continental test site.

g. Logistics requirements for support of Operation GREENHOUSE at Eniwetok.

h. Specific continental sites which might be available and suitable.

i. Procedure to be utilized in advising the President of the need for conduct of Operation GREENHOUSE in the Spring of 1951 and the effect of cancellation on the weapons program.

It was agreed that the AEC would further consider the problem in light of the information brought out by the discussion. Mr. LeBaron suggested that it might be appropriate for the Commission to prepare a letter to the President with respect to the necessity for conduct of Operation GREENHOUSE and the importance of this test for the weapons program and the thermo-nuclear weapon program. The Commission reserved decision as to procedure that they might follow in any further consideration of the problem.
