Per our telephonic conversation - This is my feeling on certain aspects of the agreement. - otherwise it looks good.

Note to

Cmdr. Wolf, MA

AEC-DOD LETTER OF UNDERSTANDING

Item "a" under DNA's paragraph indicates planning for any cleanup. Obviously, the planning for radiological cleanup cannot be done for a long time, hence, this term "any cleanup" is too vague to go unchallenged. Note the requirement placed by the General Manager in his October 27, 1972 memo that "No additional assistance is to be provided to DOD in furtherance of the PACE program ...". It is suggested that more concise wording be used, such as:

- "a. Gather information necessary for the development of plans involving the physical cleanup of Eniwetok Atoll. An engineering survey defining the physical condition of buildings and other assorted materials and debris will be necessary."
