Task Group Organization: See Annex A, Task Group Organization.

- 1. GENERAL:
 - a. Scope of Instruction.
- (1) This operation order covers the activities of the Task Group 7.2 during CASTLE buildup phase. Subsequent instructions will be issued for the Operational phase.
- (2) "Forward AREA" as the term is used in this operation order is defined as that area encompassing the MARSHALL ISLANDS.
- (3) "ENIMETOK/BIKINI Danger Area" as used in this order, is that area encompassing ENIMETOK and BIKINI ATOLIS and bounded by meridians 160°35' 166°16' east longitude, and the parallels 10°16' 12°45' north latitude, an area of 150 miles by 350 miles.
- (4) This order supplements instructions contained in CJTF 132 Operation Order 4-52 which is still in effect.
 - b. General Situation.

The Joint Chiefs of Staff (JCS) have directed the Commander Joint Task Force SEVEN (JTF SEVEN) to execute an overseas atomic test (Operation CASTLE) on the ENIMETOK - BIKINI Atolls in early 1954. The build up phase of this operation extends through December 1955; the operational phase of CASTLE is scheduled to commence in January 1954.

- (1) Enemy Porces: See Annex C.
- (2) Friendly Forces: Elements of all US Military Forces and the AEC ... and olvillan convences group included in this operation.

Revised 14 Nov 53

Headquarters Task Group 7,2 Joint Task Force SEVEN APO 187 c/o Postmaster San Francisco, California 15 October 1955

Annex B to CTG 7.2 Operation Order 1-53

SUMMARY OF TASKS

- 1, The following is a summary of continuing tasks to be accomplished by the Army Task Group during both the CASTLE buildup phase and the onsite operation phase. The Commander, TG 7.2 will:
- a. Continue to discharge the responsibilities of COTF as ATCOM, ENIMETOK with respect to entry into the ENIMETOK/BIEINI area and ground defense of those atolls.
- b. Be prepared to deploy elements of the atoll security force to reinforce the BIKINI garrison in the event of emergency.
- c. Continue to operate all base facilities at ENIWETOR
 ISLAND, except those specifically allocated to CTG 7.4 and and CTG 7.5, in accordance with existing agreements.
- d. Provide communications facilities at BIKINI ATOLL as necessary to support AEC operations at the atoll.
- e. Conduct port and stevedoring operations at ENIMETOK
 ATOLL with stevedoring assistance made available by CTG 7.5 in accordance with existing agreements.
- f. Take measures to prevent unauthorized entry into exclusion areas, coordinating this activity with CTG 7.5.
- g. Operate and maintain a TG 7.2 boat pool at ENIMETOK, taking cognizance of the Task Force Commander's concept of coordinated boat pool operations set forth in paragraph 8 of Annex B, Operation Order No. 1-53, JTF SEVEN.
 - 2. During the CASTLE buildup phase, CTG 7.2 will;
- a. With capabilities provided by CTG 7.5, operate a TG 7.2 boat pool at ENINETOK and an inter-atoll surface lift system within the forward area. Be prepared to relinquish operational control of the inter-atoll surface lift system upon commencement of the operational phase, as directed by CJTF SEVEN.
- b. With capabilities provided by CTG 7.4, operate an interisland airlift system at ENIWETOK ATOLL and BIKINI ATOLL and an interatoll airlift system to support Joint Task Force elements in the forward area, and operate minimum airstrip facilities at BIKINI ATOLL as necessary to support TG 7.1 and TG 7.5 operations at the atoll. Be prepared to relinquish operational control of these activities upon commencement of the operational phase, as directed by CJTF SEVEN.
- c. Maintain local search and rescue capabilities within the cognizance of the SAR area Commander.
- d. Prepare to support CTG 7.1 relicontamination facilities.

BEST AVAILABLE

Annex B to GTG 7.2 Operation Order 1-53 (Cont'd)

- e. Conduct liaison with CTG 7.5 to the end that support requirements for the preparation of ENIMETOK and the development of BIKINI are met.
- 5. In the accomplishment of these ultimate tasks during the accomplishment of these ultimate tasks during the accomplishment of these ultimate tasks during the
- s. Provide and operate the overall military communications system for handling of all forward area Task Porce inter-atoll and long haul traffic (exclusive of air operations, air weather and internal naval communications).
- b. Provide support services for Headquarters, JTP SEVEN as required.
- c. Be prepared, upon directive from CJTF SEVEN, to conduct emergency post-shot evacuation from ENIWETOK ATOLL of all personnel based on ENIWETOK ISLAND.
- d. Provide monitoring and decontamination services indicated in Annex H.
 - e. Support TG 7.1 as directed by CJTE SEVEN.
- f. Assure the early initiation of security clearances for participating personnel by liaison with parent agencies and commands.
- g. Require all participating personnel to undergo comprehansive indoctrination in the responsibility toward security.
- h. Assure by liaison with parent agencies and commands that all personnel to be station on ENIWETOK and BIKINI; to the extent practical, are familiarized with appropriate individual weapons prior to departure from the Zone of Interior.
- i. Assure that emphasis is placed on radiological safetys training operations.
- j. Assure maximum economy of funds and economic utilization of military forces made available for this operation.
- k. Maintain detailed records fo Task Group activity and submit reports in accordance with current Joint Task Force directives. Prepare/and forward to-CJTF SEVEN Task Group Operations Plans and Orders covering the CASTLE buildup phase.
- 1. Keep CJTF SEVEN informed as to progress of Task Group development, requesting assistance where required in effecting agreements with participating agencies and commands.
- m. Take cognizance of the ultimate tasks indicated heretofore and direct the efforts of the Task Group toward capability for this operation.

SECRET SECURIFICATION AT CALL

Headquarters Task Group 7.2 Joint Task Force SEVEN APO 187 c/o Postmaster San Francisco, California 13 October 1953

Annex C to CTG 7.2 Operation Order No. 1-53

INTELLIGENCE. SECURITY AND PUBLIC INFORMATION

- Map References: a. Asimuthal Equidistant Projection Map, No. 6709, Hydrographic Office, Washington, D.C.
 - b. Naval Survey Map. Marshall Islands, ENIVETOK ATOLL, Nos. 5413, 5205 and 6033, Hydrographic Office, Washington, D.C.
 - c. Naval Survey Map, Marshall Islands Bikini Atoll, No. 6032, Hydrographic Office, Washington, D.C.
 - d. Eniwetok Building Layout, 1" = 400', 6 Mar 53
 - e. Sea-Air Rescue Map for Eniwetok Atoll, 4 Jan 53
 - f. Sea-Air Rescue Map for Bikini Atoll, 3 Jul 53

1. Intelligence - General

- a. No interference is expected from an overt enemy during Operation CASTLE since the use of force or direct open observation from a point well within the ETIWETOK-BIKINI danger area would involve consequences out of proportion to the value of the results to be obtained from such action.
- b. The country having the greatest capability of compromising the security of Operation CASTLE is the Soviet Union.
- c. In the event of an outbreak of war the entire concept of the operation would be changed materially.

2. Summary of Enemy Capabilities

- a. It is considered that interference with the mission or compromise of its activities could be effected by espionage, sabotage, overtaction by wessel or aircraft, raids, observation, unauthorised instrumentation and declaration of war.
- b. Naval Capabilities. The USSR has a ocean patrol and 37 medium range type submarines in the Pacific area. It is estimated that at least 4 to 6 ocean patrol submarines could be maintained in the ENIMETOK BIKINI operational area indefinitely and for short periods this number could be increased. Unobserved submarine approach within 1 mile of important islands of these atolls is possible.

c. Air Capabilities

(1) Aerial photo and radiological reconnaissance of the MINETOK BIKINI area from Far East bases (SAKHALIN or the KURILES) are within Soviet capabilities. With prior access to CASTLE plans, reconnaissance flights could be properly timed to permit aircraft to remain the target area for a briol period. The TU-4, modified for long range reconnaissance, could accomplish this without refueling. Assuming that the Soviets have developed refueling techniques equal to those of

BEST AVAILABLE COSY

SECRET

Annex C to CTG 7.2 Operation Order No. 1-53 (Cont'd)

the U.S., one outbound refueling would extend the time over target to over 4 hours. There is no evidence, however, that the Soviets have developed refueling capabilities. The third Long Range Air Army, stationed in the Far East, is presently estimated to have a TO/E strength of approximately 220 TU-4s. No aircraft of this type is known to be modified for long range reconnaissance.

(2) The only Soviet aircraft known to have greater range potentiality than the TU-4 is the Type 31 prototype heavy bomber which was observed in flight for the first time in the July 1951 Aviation Day air show in Moscow. This aircraft, if equipped with the JU-022 turboprop engine, would have a combat radius of about 3500 nautical miles and considerably in excess of this if the combat load were replaced with fuel. A few aircraft are probably available having range capabilities comparable to the Type 31. It is entirely possible that the Soviets might equip such an aircraft for photo and radiological reconnaissance if a sufficiently high priority exists for this requirement.

3. Conclusions

Espionage, sabotage, observation and unauthorized instrumentation are considered most likely to occur under conditions existing today. The declaration of war, overt action by vessels or aircraft and raids are less likely possibilities which could take place in the event of open hostilities between the U.S. and the USSR.

4. Security Responsibility

a. Security of classified information is the normal responsibility of any commander but this responsibility must be reevaluated in Operation CASTLE where the operation is dealing with atomic energy, a development which played an important part in terminating World War II and which constitutes such importance that it has been regulated, controlled and protected by Federal law. The responsibility of each individual in properly safeguarding classified information concerning atomic energy and in proventing its compromise by careless talk or correspondence must be understood by all military ranks and civilians.

b. CTG 7.2 is responsible for proper security within TG 7.2 and for security of classified information and areas, including entry, within the forward area as directed by CJTF SEVEN. The intelligence officer (S2) TG 7.2 discharges for the commander the function of enforcement of security measures and controls, exercising operational control of all kilitary Police units assigned to TG 7.2 for this purpose. kilitary Police Posts will be established as listed in Appendix I, this annex.

5. General Conception.

a. The ENLETOK-BIKINI area of operations will be closed to all personnel except those participating, Access to this area will be in accordance with regulations promulgated by CINCPAC Serial 020. Certain areas within the ENLETOK-BIKINI operational area will be designated in accordance with degrees of security required.

b. Personnel participating in the operation will be cleared for loyalty and security in accordance with the varying degrees of responsibility.

For appropriate units

(2) Hq JTF SEVEN Nemoranda Espionago Act Atomic Energy Act of 1946 AEC-DOD Classification Criteria

Apply to all members : Joint Task Force SEVE

- e. CTG 7.2 is responsible for security training of members of his command. All personnel will be required to pass a basic security examination which will be prepared and distributed by Readquarters.

 Joint Task Force SEVEN,
- f. Each Basic Dotachment of TG 7.2 will have an officer designated as security officer, whose primary duties will be security training, enforcement of security regulations and supervising the Edministoring, grading and recording the results of security examinations. Examination results will be forwarded to S2. TG 7.2 as soon as resorded.
- 6. Personnel Clearances. CTG 7.2 is responsible that all TG 7.2 porsonnel participating in Operation CASTLE are cleared in accordance with CJTF SEVEN Memoranda.
- 7. Classification Criteria: A "Classification Guide for Operation GASTLE" concerning all pertinent classification criteria will be issued to the Task Group Commanders for their guidance.

8. Travel Security Control.

- a. CINCPAC Serial 020, dated 1 April 1952, outlines the requirements for entrance to the ENIMPTOK-BIKINI operational or closed area. (The land areas of Enimetok and Bikini Atolis, the water areas of the respective lagooms and water areas within three (3) miles to the seaward, side of the respective land areas.)
- b. The Commander, TG 7.2 is responsible that individuals arriving at ENIMETON-BIKINI operational area who have not been cleared for entry under CIMPAC Serial O2O are restricted to ENIMETON ISLAND, pending proper clearance. Isolation and control of such personnel will be in accordance with current CIMPAC directives and will be accomplished by the Military Police.
- c. Travel within the ENIWETOK-BIKINI operational area will be controlled by a badge system for access to the higher classified secutivy areas.
- d. All persons who are authorized to enter the ENIVETCK-BIKINI operational area will be initially cleared under the provisions of CINCPAC Social OCC. Said Committees may authorize reentry without recourse to CINCPAC.

9. Sccurity Areas

- a. The "ENIMETCK-EIKINI Danger Area", as defined on page 1, paragraph la(3) of this operation order, consists of three (3) classified area categories, as defined by ANC CM Security Bulletin No. 18, for purposes of security enforcement. These areas are:
- (1) Exclusion Area. A security area containing a security interest which is of such nature that access to this area constitutes, for all practical purposes, access to the security interest contained therein i.e., a shot site or assembly area.
- (2) <u>Limited Area.</u> A security area containing a security interest in which area controlled movement would permit access to the security interest contained therein; but such access may be prevented by escort and other internal restrictions and controls i.e., PARRY ISLAND.
- (3) Controlled Area. A security area adjacent to or encompassing limited or exclusion areas and within which area uncontrolled movement does not permit access to a security interest, and which is designated for the principal purpose of providing administrative control, safety or a buffer area of security restrictions for limited or exclusion areas i.e., ENTHETOK Closed Area.
- b. Exclusion and limited areas are established by CJTF SEVEN. Internal security requirements and access to these areas are determined by CTG 7.5. The Commander, TG 7.2, is responsible for the guarding of these areas, and for admission of only those persons authorized by CJTF 3LVIN.
- c. The closed (controlled) area has been established by CINCPAC. Admittance to this area is authorized by CINCPAC upon recommendation of CJTF SEVEN. The internal security of this area is the the responsibility of ATCOM ENIMETCK.
- $\mbox{\bf d}_{\bullet}$ Clearance requirements for access to the security areas are designated as follows:

SECURITY AREA	JTF CLEARANCE REQUIREMENTS	AEC CLEARANCE REQUIREMENTS
Exclusion Area	"Q" Clearance and Access List.	"Q" Clearance and Access List.
Limited Area	"Q" Clearance; Top Secret Military Clearance; Secret Military Clearance under escort	"Q" Clearance; "P" approval under escort (without access to Restricted Data); Top Secret Clearance (provided no access to Aestricted Data from AEC contractor personnel); Secret military Clearance under escort.
Controlled Area	Good Security Risk (CINCPAC Ser. 020)	"P" approval or good security risk (CINCPAC Serial 020)

10. Badge System. A badge system will be established to control travel to the exclusion and limited areas. The Commander, TG 7.2, will be responsible for controlling and enforcing this system or order promulgated by CJTF SEVEN. The Commander, TG 7.5, is responsible for procurement and issuejof badges as set forth in CJTF SEVEN security memoranda. The badge system will become effective on or about 1 January 1954.

Annex C to CTG 7.2 Operation Order No. 1-53 (Contid)

11. Contraband

- a. Unless authorized by specific orders to individuals, possession of items of material listed below in the ENLETCK-BIKINI area is prohibited and the items considered contraband.
 - (1) All photographic equipment.
- (2) all equipment adaptable for use in either visual or electronic communications.
 - (3) All optical equipment.
 - (4) All materials with explosive capabilities.
 - (5) All weapons.
 - (6) All drugs and intoxicating beverages.
- b. Travel orders will include a statement of the articles of contraband.
- c. Items of contraband will be confiscated and report of the circumstances made to CJTF SEVEN.
- d. Film found in possession of unauthorized persons will be confiscated, forwarded to CTG 7.5 for processing and classification and a report will be made to CJTF SEVEN.
- 12. Photography. Only official photography is authorized in the ENIMETOK-DIKINI operational area. All official photography will be reviewed by the Joint Task Force SEVEN Classification Officer for proper classification and determination of "RESTRICTED DATA". Prior to review and final classification by the classification officer, all photography will be given a preliminary classification. The preliminary classification will in no case be lower than SECRET-SECURITY INFORMATION for scientific and non-technical photography and LESTRICTED-SECURITY INFORMATION for administrative photography.
- 13. Communications Security. The security and monitoring of communications will be accomplished under the direction of CJTF SEVEN.
- 14. Counter-Intelligence. The Commander, JTF SEVEN, will have operational control of all CIC units. The Commander, TG 7.4 will have operational control of all CSI agents whose activities will, in general, be confined to Air Force matters.
- 15. Security Patrols. The Commander, TG 7.2 is responsible for conducting the necessary security patrols within ENIMETCK-BIKINI ATOLLS. Air and sea security patrols outside the ENIMETCK-BIKINI ATOLLS will be the responsibility of CTG 7.3.
- a. Security sweeps of islands of ENTHITOK ATOLL will be conducted by Military Police personnel as follows:
- (1) Air Surveillance sweep of all islands of atoll once weekly.
- (2) Ground sweep, transported by helicopter or DUKW and LCM of all islands radiologically safe, a minimum of once monthly.

7-5

Revised 14 Nov 53

SECRET

Annex C to CTG 7.2 Operation Order No. 1-53 (Contid)

- b. On instructions from CTG 7.2 similar sweeps will be conducted at BIKINI ATOLL:
- c. In addition, 4930th Test Support Group will conduct air sweeps of ENTVETOK ATOLL three times weekly in accordance with current policy.
- 16. <u>Inspections</u>. Inspections will be conducted upon arrival of personnel and periodically thereafter to detect security violations and contraband and to insure the use of proper identification credentials and proper safeguarding of classified matter. Individuals are responsible for reporting security violations which come to their attention.
- 17. Security Violations Compromise of Classified Material. S2, TG 7.2 is responsible to CTG 7.2 for investigating and reporting immediately all violations of security regulations which occur within the jurisdiction of CTG 7.2. Periodic reports will be submitted until the case is closed to CJTF SEVEN, ATTN J2. Investigations should be conducted by CIC personnel obtained through CJTF SEVEN whenever possible. The Provost Marshal will render assistance, as requested.

18. Public Information.

- a. TG 7.2 does not release information to the public.
- b. Release to the press in regard to Joint Task Force SEVEN operations and activities are made only by the AEC or DOD.
- c. Personnel of TG 7.2 are prohibited from releasing any information for publication, in regard to the Joint Task Force or its activities. They must neither confirm nor deny any articles appearing in the press.
- d. Department of Defense-Atomic Energy Commission releases, when made, will be disseminated to units of Joint Task Force SEVEN through normal communication channels at the earliest possible time.

Annex D to CTG 7.2 Operation Order No.

ADMINISTRATIVE

Administrative instructions applicable are contained in CJTF 132 Operations Order No. 4-52, CJTF Savan Operations Order No. 1-53, Joint Task Force Savan and Task Group 7.2 SOP's.

OFFICIAL:

EDWARD H LAHTI Colonel, Infantry Commander

RILLY P MINER CWO, USA Adjutant

APPENDICES:

I Billeting Plen, Eniwetok Island
II Allocation of Buildings, Eniwetok Island
III Building Allocation Chart, Eniwetok Island

Headquarters Task Group 7.2 Joint Task Force SEVEN APO 187 c/o Postmaster San Francisco, California 13 October 1953

Appendix I to Annox D. CTG 7.2 Operation Order No. 1-53

BILLETING PLAN, ENIWETOK ISLAND

- 1. FURPOSE: The purpose of this appendix is to set forth the Billeting Plan of Task Group 7.2 during the build-up phase of Operation CASTLE.
- 2. GENERAL: The billeting of personnel on Eniwetok during the buildup phase will be governed by allocations rade by Joint Task Force SEVEN
 which limits the amount of personnel that each Task Group is authorized
 to have ashere. During the maximum population period, the total number
 of personnel from all elements of the Joint Task Force will be 2988.
- 3. AUTHORIZED POPULATION: The following personnel strengths have been authorized the task group by CUIF SEVEN for personnel quartered on Eniwetok during build-up and operational periods.

Task Group 7.1	95
Task Group 7.2	967
Task Group 7.3	165
Task Group 7.4	1651
Task Group 7.5	₇ +0
Official Observers	50
Weather Central	20

Total 2988

a. Billeting areas are indicated on Building Allocation Chart, Appendix III. Annex D.

4. EM AND OFFICER ACCOMODATIONS:

a. Officers

- (1) Tents that are used for officer personnel will allow for the accommodation of six officers per tent. A hot locker will be provided each officer for storage and clothing apace.
- (2) Officers quartered in the small type aluminum buildings will be assigned two per room. Hotlocker and a desk is provided in each room.
- (3) The large type aluminum building will have four to six officers to each room depending upon the flexibility that will be needed in order to furnish accommodations for efficers arriving and departing. A hotlocker will be provided for each efficer and a table with two chairs per room.

b. Enlisted Personnel

- (1) All enlisted personnel living in tents will be billoted at a rate of nine non per tent.
- (?) Each tent will have a hotlockor, weapons locker, and we table with two chairs.

D-I-1

BEST AVAILABLE COPY

Appendix I to Annex D. CTG 7.2 Operational Order No. 1-53 dated 13 October

- (3) Enlisted non quartered in the large type aluminum building will be assigned eight non to each room.
- 5. BILLETING FEES: A billoting foo sufficient to defray the cost of laundry (bod linem) and orderly service will be collected from each officer or civilian occupying officer type quarters. Collections are to be made between the first and fifth of each month or prior to departure time of individuals leaving this installation.
- a. Personnel occupying officer typo quarters on a transient basis, will be charged at a rate of 50 conts per day not to exceed \$7.50 for periods up to 29 days. Personnel remaining at this station for 30 days or more will be charged the regular mentally assessment of \$3.00 per mental or major fraction of a mental.
 - b. There will not be any charge for transient emlisted personnel.
- c. Porsonnel laundry service can be obtained on a cash and carry basis at the Post Laundry. A pick-up and delivery service will be provided if desired.
- 6. PERSONNEL STRENGTH TASK GROUP 7.2: Detachment of Task Group 7.2 have been allocated space for personnel quarters as indicated below. Consideration has been taken of technical personnel who are to be redeployed to adjacent islands and will not require accommodations on Eniwersk Island during the operational phase.

Annex E to CTG 7.2 Operation Order No. 1-53

LOGISTICAL

1. General

Logistical support of the Task Group during the build up phase of CASTLE will continue to be provided through supply and service agencies of the Department of Defense in accordance with existing regulations, directives and agreements. During this period additional support will be derived from other elements of the Task Force as a result of logistical missions assigned commanders of other Task Groups.

2. Logistical Missions

Logistical missions assigned to Task Group 7.2 during the build up phase include the following:

a. Furnish housekeeping supply support to all units housed and operating at Eniwetck Island. This support will include billeting, messing, commissary, salvage, POL Products, laundry, billeting supplies, general purpose vehicles, bus transportation, sales store, clothing and equipment repair, EM and Officers' clubs, PX and athletic and recreational facilities. Issue of class X clothing to all military personnel stationed on Eniwetck Atoll in the following quantities, until existing stocks are exhausted:

Item	Individuals Permanently Assigned	Individuals Temporary Assigned			
Shorts, Cotton Khaki Shirts, Cotton Khaki Short Sleeve	4 Pr. 4 Ea.	2 Pr. 2 Ea.			
Shoes Service	1 Fr.	1 Pr. if TDY Period is to be in excess of 30 days			

- b. Supply Army procured Class II and IV material (non expendable property).
- c. Supply Army procured expendable supplies to all elements of the Task Force on ENINETOK ATOLL, on a reimbursable basis.
- d. Provide for maintenance of all Army general and special purpose military equipment and and Air Force special purpose equipment on ENIWETOK ATOLL consistent with facilities under control of CTG 7.2. Using units and activities are responsible for preventive maintenance of property in their custody and for repair of such property to the extent of their capabilities.

3. Supply

a. Unit commanders and chiefs of using activities of this command are responsible for determination and timely submission of requirements for material and services for their respective units and

activities. They will initiate periodic checks to insure that essential requirements are being met. Shortages or deficiencies which will retard operations will be reported promptly to the Task Group Commander.

- b. Essential materiel and services which cannot be obtained from military or AEC sources may be procured commercially in the Territory of HAWAII or the CONUS within the limitations of available funds.
- (1) Wherever possible, the procurement will be accomplished through existing procurement agencies of the Department of Defense and/or the AEC.
- (2) Procurement with Task Group funds will be in accordance with current Armed Force Procurement Regulations.
- (3) Procurement problems which cannot be resolved by the Task Group will be referred to the Task Force Commander.
- o. Procedures for the requisition and distribution of supplies and equipment, and for messing of personnel are set forth in SOP's published by CTG 7.2.

4. Property Control

- a. The Accountable Officer is the individual designated to account for all supplies and equipment designated for Task Group 7.2. He will receive, store, issue, and safeguard all supplies and equipment.
- b. The Commissary Officer is the individual designated to requisition receive, store, safeguard, issue and account for rations and commissary stocks pertaining to the Task Group.
- c. Property in custody of the Task Group will be marked in accordance with existing instructions of the owning agency.
- d. Except as otherwise indicated below, property in oustody of the Task G roup will be accounted for in accordance with established procedures of the using activity.
- e. Property which is lost, damaged, or destroyed while in custody of the Task Group will be accounted for in accordance with established procedures of the owning agency.
- f. Where the loan of property to the Task Group is conditioned upon specific terms, 277 7.2 is responsible for strict adherence to such terms.
- g. The lending of property between the military and AEC elements of the Task Force is authorized and encouraged where such action will result in economy of funds. All such loans will be transacted by and through the Accountable Officer of the Task Group.
- h. Salvage and scrap will be disposed of in accordance with existing instructions of the owning agency. The Salvage Officer may direct the destruction of scrap and salvage when he has ascertained that no further use exists for specific items. He will maintain a suitable salvage yard for materials which have a probable future use and will establish prescribed records to account for such materials.

E-2

i. Excess military property will be reported to CJTF SEVEN by the Accountable Officer for disposition and shipping instructions. The shipment of such property from the forward area will not be accomplished without the prior approval of CJTF SEVEN.

5. Hospitalization and Evacuation

a. Medical Services

- (1) The Task Group will provide hospital facilities on ENIMETOK ISLAND for all shore elements of the Task Force in that area. Hospitalization of personnel in other areas will be coordinated with commanders of other Task Groups.
- (2) Infirmaries and aid stations required to support operations of the Tack Group may be established as deemed necessary by the Task Group Surgeon.

b. Evacuation

(1) Sick and injured.

- a. Personnel who, in the opinion of the Surgeon or senior medical officer of the Task Group present for duty, cannot be returned to duty within 15 days, may be evacuated from the forward area.
- b. Air evacuation facilities will be provided by Commander, Pacific Division, Military Air Transportation Service (PACD IVMATS), and will be arranged by coordination with the Military Air Evacuation Service (MAES) Honolulu T.H.
- c. Military and civil service personnel will be evacuated to Tripler Army Hospital. All other personnel will be evacuated to civilian hospitals on OAHU, T. H.
- d. The return of evacuees to their duty stations will be arranged by the JTF SEVEN Liaison Officer at Hickam AFB in coordination with PACDIVMATS and the hospitals concerned.

(2) Deceased

- a. Remains of military and civil service personnel will be evacuated by the Task Group Mortuary Officer to the US Army Mortuary, Tripler Army Hospital. Remains of other civilian personnel will be evacuated to previously designated civilian mortuaries on CAHU, T. H.
- b. A complete serviceable, uniform except headgear and footwear will accompany military remains.
- c. The following information will be furnished by radio to CG USARPAC with information copy to PACDIVMATS:

1. Military Personnel

(a) Name, rank or rate, serial number, organization and service.

(b) Campaign ribbons, decorations and awards to which deceased is entitled. (If service record is incomplete, so state.)

E-3

BEST AVAILABLE COPY

(c) Date concerning the flight on which remains will be shipped including ETA OAHU.

2. Civilian Personnel

(a) Name of deceased and organization by

which employed.

- (b) Name and address of next of kin.
- (c) Date concerning the flight on which remains will be shipped including ETA OAHU.
- e. Territory of HAWAII standard death certificates will be accomplished and forwarded with remains in each case.

6. Transportation

a. <u>Mission</u>: The mission of the Transportation Officer and the assigned <u>Transportation</u> Corps units is to furnish the Commanding Officer, TG 7.2 a comprehensive staff and operational transportation service; serve as supervisor of all port and highway activities; control and coordinate MATS air passenger, cargo and mail traffic; control and coordinate an inter-atoll air lift system; operates a port of embarkation/debarkation.

b. Water Transportation

(1) Organization: The Port Detachment, 7126th AU, operates all port facilities and is responsible to the Transportation Officer for the discharge and loading of all ships in the Eniwetok Lagoon area.

c. Facilities (Eniwetok Island)

- (1) Gear and Maintenance Loft capable of giving sustained support to the Port Detachment's operation.
- (2) Material Handling Equipment is presently available in quantity to support adequately the port operation operating at maximum tonnage capacity.
- (3) Cargo Pier is approximately sixty (60) feet wide and extends approximately one hundred thirty-five (135) feet into the water.
- (4) Storage facilities for Cargo Pier are non-existent except for a small open storage and segregation area at the head of the Cargo Pier, capable of temporarily storing approximately 6000 square feet of cargo.
- (5) Personnel pier is located at north end of Lagoon side of island and is capable of berthing two (2) LCMs simultaneously for the purpose of discharging or loading personnel. The beach area immediately south of Personnel Pier is capable of beaching two (2) LCUs simultaneously for the discharge of cargo and personnel.
- (6) Heavy lift equipment presently on hand consists of one (1) twenty (20) ton capacity, crawlor type crane, and two (2) fifteen (15) ton capacity, crawler type cranes.

BEST AVAILABLE COPY

- (7) Navy Boat Pool, manned by one Officer and twenty-five (25) EM equipped with two (2) LCMs and one (1) AVR, and one (1) LCPL which may be augmented to fulfill its mission.
- (8) Amphibious Section consists of 12 DUKWs for use in inter-island and ship to shore cargo/passenger traffice as required.

d. Facilities (Parry Island)

- (1) Gear and Maintenance Loft is capable of giving adequate sustained support to port operations operating at maximum capacity.
- · (2) Material Handling Equipment is presently available to adequately support the stevedoring operation.
- (3) Cargo Pier is capable of handling two (2) LCUs, and three (3) LCMs, one (1) LCU and two (2) 500 ton barges, and cargo at the approximate rate of seventy-five (75) weight tons per hour.
- (4) LST Beach is located adjacent to and NE of the Cargo Pier and is capable of beaching one (1) LST and four (4) LCUs.
- (5) Personnel Pier is located on the NE end of Eniwetok Island and is capable of berthing three (3) LCMs for discharging or embarking passengers. The beach area SW of Personnel Pier is capable of beaching (3) LCUs simultaneously for the purpose of discharging or embarking and debarking passengers.
- (6) Floating Equipment presently available and operating is as follows: Eight (8) LCMs, three (3) LCMs, one Yard Tug, Steel, 375 HP, one (1) Yard Tug, wooden, 300 HP, three (3) Water Taxis, three (3) 500 ton capacity steel type barges, and one (1) Floating Drydock.

e. Highway Transportation

- (1) <u>Organization</u>: The Transportation Truck Detachment, 7126 AU, is responsible to the Commander, TG 7.2 to furnish motor transportation and organizational mointenance service for all Army Accountable Vehicles of all elements of JTF SEVEN based on Eniwetok Island.
- (2) <u>Facilities</u>: The island motor pool is divided into two (2) sections:
 - a. Operations section.
 - b. Organizational Maintenance Section.

E-5

SECRET

Annex E to CTG 7.2 Operation Order No. 1-53 (Cont'd)

f. Air Transportation:

(1) Responsibilities: The Transportation Officer is the Chairman of the Air Traffic Control Committee which is formed for the purpose of determining outbound movement requirements for all elements of JTF SEVEN, and for inbound movements of cargo, passengers, and real for TG 7.2 only, for traffic on MATS aircraft. Controls the priority of movement on outbound MATS, and operating C-47 inter-atoll flights.

(2) Facilities:

(a) MATS: Facilities for the movement of inbound and outbound passenger and cargo requirements are furnished by MATS, and are capable of supporting air traffic, both cargo and passenger, as determined by the Air Traffic Control Committee. These facilities include a freight terminal providing open and temporary covered storage and a passenger waiting room, with normal facilities, capable of accommodating up to fifty (50) personnel.

(b) Inter-Atoll Flights (C-47): The Transportation Officer has been granted temporary warehouse space in the Air Force area, to receipt for, and manifest cargo.

COMMUNICATIONS

1. General Concept of Communications Operations

- a. One permanent relay-orypto center at ENIWETOK will be installed, operated and maintained by TG 7.2. Tributary stations serviced by this relay center will include: Hq, JTF SEVEN, TG 7.2, TG 7.3, USS ESTES and other ships as required (i.o., CURTISS, QVE, LSD) and TG 7.4. Headquarters, JTF SEVEN communications center will provide for TG 7.1, TG 7.5, and TG 7.3 (ashore).
- b. Crypto center, ENIWETOK, will be crypto guard for all above mentioned tributary stations except TG 7.3 (afloat). For handling of teletype traffic, up to and including SECRET, between major forward and rear echelon task force elements the following radio teletype circuits will be operated "ON-LINE", using SIGOT with SAMSON (synchronous mixer):

OTROUT	TIPE			
ENIWETOK - OAHU (UHP)	Full Dux (1)			
ENIMETOK - BIKINI	Full Dux (1)			
ENIWETOK - KWAJALEIN	Full Dux (1)			
ENI.ETOK - LOS ALAMOS	Full Dux (1)			
ENIWETOK - AGC (USS ESTES)	Full Dux (1)			

CIDOITT

Traffic not capable of being handled by means of on-line facilities will be enciphered off-line prior to transmission. All TOP SECRET and RESTRICTED DATA traffic will be enciphered off-line. This is necessary to meet AEC requirements and, in addition, terminal communications personnel are not in all instances TOP SECRET or "Q" cleared.

- c. Telecon facilities will be available at Headquarters, JTF SEVEN (PARRY ISLAND). Requests for this service will be submitted in accordance with COI item 29-1.
- d. Wire telephone facilities cleared for conversations up to and including SECRET will be available at:
- (1) ENIVETOK ISLAND (400 dial exchange) with connecting service to other islands.
 - (2) BIKINI ATOLL (connecting service between necessary islands).
- (3) PARRY ISLAND (220 line manual with connecting service to other islands).
 - (4) Ship-shore buoy cable at ENTUETOK, PARRY AND BIKINI.
- (5) AN/TRC radio, limited to unclassified traffic, will be used as a backup for the foregoing facilities.
- e. Voice radio facilities will be available on a closely controlled basis between the following points:

BEST AVAILABLE COPY

STORET-

Annex G to CTG 7.2 Operation Order No. 1-53 (Cont'd)

- (1) ENTWETOK-BIKINI (HF)
- (2) ENIVETOK-K-AJALEIN (TG 7.4 controlled) (HF)
- (3) ENYU (Firing Party) USS ESTES (VHF)
- (4) Between Ships (UHF, VHF, AN/TRC and HF)
- (5) Ship-Shore (VHF, AN/TRC and HF)

Long-haul and inter-atoll voice radio and radioteletype facilities will be limited to those authorized by CJTF SEVEN.

2. Mission, Headquarters, TG 7.2

a. Install, operate, and maintain communications facilities as directed by CUTF SEVEN.

b. Establish a transmission security training program for all intended users of voice radio facilities and a message drafter improvement program to insure most efficient use of limited operational communications facilities.

3. Communications Missions of Subordinate Units

a. Signal Detachment (TG 7.2)

- (1) Install, operate and maintain relay center, ENINETOK, for Joint Task Force. Insure a complete operator knowledge of on-line SIGOT operations.
- (2) Operate and maintain communications centers for Head-quarters, JTF SEVEN (PARRY ISLAND), Headquarters, TG 7.2 (ENINETOK ISLAND) and in support of AEC operations at BIKINI (ENINMAN).
- (3) Provide crypto guard facilities for Headquarters, JTF SEVEN, TG 7.1, 7.2, 7.4, 7.5 and for Headquarters, TG 7.3 when ashore.
- (4) Install, operate and maintain all land-based communications facilities required at ENT.ETOK ATOLL except:
 - (a) Task Group 7.4 internal communications
 - (b) Telephone plant on islands other than ENIMETOK
 - (c) Inter-island and buoy cable systems
 - (d) Special facilities required by TG 7.1 and TG 7.5
 - (5) Install, operate and maintain backup facilities for:
 - (a) The ENIMETOK-PARRY submarine cable circuits.
 - (b) The ENINGAN-ENYU submarine cable keying circuits.
 - (c) Buoy cable circuits at ENIMETOK and BIKINI

ENTIETOK, and communications center, BIKINI, using standard teletype equipment.

G-2

BEST AVAILABLE COTT

- (6) Install, operate and maintain BIKINI terminal facilities, to include AN/TRC equipment for use on ENYU-ESTES ciphony link and HF transmitting and receiving equipment (ENYU) for use on ENIVETOK-BIKINI RATT duplex circuit.
- (7) Install, operate and maintain theater facilities at ENT.ETOK ISLAND; install and maintain motion picture projection facilities at PARRY ISLAND and BIKINI ATOLL.
- (8) Operate a crystal grinding facility for emergency production of crystals for all elements of the Task Force.
- (9) Furnish emergency power for communications facilities provided by TG 7.2, to include the joint transmitter building.
- (10) Operate a battery charging plant for the maintenance of storage batterjes.
- (11) Provide maintenance for Special Service radio broadcast station TXLE and Special Service radio receivers.
- (12) Provide personnel and equipment to operate and maintain Headquarters, JTF SEVEN teleconferencing facilities on PARRY ISLaND.
- (13) Provide such other electrohic facilities, the operation and maintenance of which are normally considered a responsibility of the Signal Corps, which are within the capabilities of personnel and equipment available.
- (14) Install, operate and maintain facilities control of circuits terminating in Relay Center, ENIMETOK.
- (15) Provide a send and receive TT circuit from Headquarters, JTF SEVEN Communications Center (PARRY ISLAND) to central receiving pont in Building 208-209, PARRY ISLAND, for delivery of teletype traffic for TG 7.1 and TG 7.5.
- (16) Where, in the foregoing paragraphs, installations is a responsibility assigned to CTG 7.2, it will be accomplished in conformity with specifications issued by CJTF SEVEN.
- (17) Operate communications facilities in accordance with Annex D to CTG 7.2 Hostile Action Alert Plan No. 1-53.

b. Military Police Detachment

Operate the Military Police Communications system in accordance with established procedures in applicable JANAP () and ACP ().

Port Detachment

- (1) Operate the off-loading communications system in accordance with established procedures in applicable JANAP () and ACP ().
- (2) Operate the Combat Security Force Communications net in accordance with Annex D to CTG 7.2 Hostile Action Alert Plan No. 1-53.

G-3

d. POL Section

Operate the communications facilities for off-loading of ships containing POL materials in accordance with applicable JANAP () and ACP ().

Annex H to CTG 7.2 Operation Order No 1-53

RADIOLOGICAL SAFETY

- 1. GENERAL: The detonation of any nuclear device in the vicinity of ENT.ETOK ATOLL could result in the radiological contamination of ENT ETOK ISLAND. Radiological safety for all Task Group personnel is a command responsibility and radiological safety activities will be performed through command channels. (See Radiological Safety regulation; Appendix I to Annex I CUTF SEVEN Operations Order 1-63.
- 2. MISSION: Task Group 7.2 has been assigned the following missions by CJTF SEVEN Operation Order 1-53:
- a. Establish a radiological safety organization within the Task Group capable of minimizing the effects of contamination of ENINETOK ISLAND due to "fall out" and perform all ground monitoring services associated with ENILETOK ISLAND except in those areas or activities assigned to other Task Groups.
- b. Provide fifty (50) "Q" cleared radiological safety monitors and ten (10) decontamination personnel for emergency support of TG 7.1.
- c. Conduct radiological safety orientation for all personnel of the Task Group.
- d. Provide RADIAC equipment for Task Group requirements including spare parts and repair and calibration facilities.
- e. Provide contaminated elething laundry facilities for TG 7.2 and TG 7.4.
- 3. ORGANIZATION AND TRAINING: To accomplish the missions stated in paragraphs 2a and b above as expeditiously and as economically as possible, the radiological safety organization shown in appendix I is established. Personnel to tan this organization as an additional duty will be selected and trained on the basis of the qualifications listed in paragraph 3a below.
- a. Qualification for a little and training of unit and section radiological safety personal laterals follows:
 - (1) Officers: Roman a date not earlier than 15 April 1954.
 - (2) Enlisted Men:

Commence of the

- (a) Rotation aut. not earlier than 1 May 1954.
- (b) "Q" clearance as regular duty requirement.
- (c) Aptitude area I score of 90 or above.
- b. Responsible Officers for the units and sections listed in appendix I will appoint one (1) officer from the unit or section as Unit Radiological Safety Officer.

 The Practical Atomic Defense Course (Standard Course 425) at the Fleet Training Center, Pearl Harbor, TH.
