Mr. Robert Niles, Chief
Classification Management
Defense Nuclear Agency
Washington, DC 20305

Dear Mr. Niles:

FOI Request for DNA 3586F - Sanitized

The DOE has reviewed the above report entitled, "The Application of Invariant Turbulent Modeling Techniques to the Problem of Late-Time Dispersion of Nuclear Debris", and discerned no classified information in the version sanitized by the removal of the classified appendix. The report was handcarried to OC on June 23, 1982.

We have no objection to the release of the above version of the enclosed document.

Sincerely,

I. L. Cucchiara
I. L. Cucchiara
Chief, Operations Branch
Office of Classification
