Division of Biology and Medicine, Washington
FINANCING OF BIOLOGY PROGRAM - EXPERIMENTAL

R   September 23, 1949

REFER TO
SUBJECT: SW:MAS

In connection with the forthcoming weapons test this Division has
expressed willingness to participate with the Division of Military
Application and the NME in a somewhat extensive biology experi-
mental program. As a result of several discussions with those
concerned in this matter it has been agreed that the extent of
the financial participation of Program 6000, Biology and Medicine,
will be $300,000 in F.Y. 1950 and $600,000 in F.Y. 1951 (this
latter amount being included in the F.Y. 1951 budget) for a total
participation of $900,000.

It is our understanding that these funds will be used for opera-
tional costs including the establishment and care of an animal
colony at the site, etc., and that an equivalent amount is to be
furnished by the Division of Military Application for necessary
construction. It is also our understanding that the National
Military Establishment will render such funds and services as
they are able to.

We are, therefore, requesting the Division of Finance to transfer
$300,000 in F.Y. 1950 Cash Appropriation to your account for this
purpose. It is desired that a record be maintained of obligations
and expenditures against this amount in sufficient detail as will
enable future analysis of cost of performance.

cc Div. of Military Application
    Div. of Finance
    Mr. Herbert Miller, HFOO
    Dr. O.V.Lefoy, Biol. aMed.Div.
