DLA: JEP

We have now received a proposed program and itinerary from Dr. Donaldson in connection with the proposed recovery of Akita and Balwatic. He has been fairly specific as to the extent of support which would be required of the Army but if you require additional information in connection with preliminary discussions with the Army Department regarding their willingness to support this project I shall be glad to secure the information from Dr. Donaldson.

It is my understanding that you will prepare a letter to the Army Department regarding this expedition but if you desire that it be prepared by this office please let me know.
