Dr. Shields Warren, Director
Division of Biology and Medicine
W. W. LeRoy, Project Director
Biomedical Test Program
Transfer of Funds

RE: Report of Biomedical Program planning, dated September 6, 1949

1. Planning for the Domestic 1 Program to be conducted in connection with future atomic weapons tests has progressed to the point where the AEC contractor is prepared to start construction of necessary facilities on Epton Island. The total cost of these facilities cannot be stated at the present time; but informed estimates are of the order of \$40,000 for 1950-51.

2. It is recommended that funds in the amount of \$30,000 be provided as soon as possible so that there will be no delay in beginning construction.

3. These funds should be transferred to the account of the Division, under the area operations office.

W. W. Graves
Col. Druss
