Collector of Customs
Bureau of Customs
Treasury Department
San Francisco, California

Dear Sir:

In conference with instructions of the Passport Division, Department of State, we are forwarding herewith a list of the individuals participating in the Joint AEC-Navy scientific expedition to the Pacific Islands of the Marshall Group. The approximate date of departure from San Francisco of this group is July 21, 1949, and the date of re-entry at the same port will be approximately four weeks later.

All of the individuals engaging in this expedition are United States citizens and have been issued Navy Department identification cards. We have been informed by the Department of State that there is no objection to their departure and re-entry by means of the identification cards.

The attached list includes the name, date of birth, race and address of next of kin. It will be appreciated if you will furnish the Immigration and Naturalization Service with this information, if necessary. Two extra copies of the personal list are included.

Sincerely yours,

Ward Miller
Acting Administrative
Officer, Division of
Biology and Medicine
