Dr. Shields Warren
Director of Biology and Medicine
Atomic Energy Commission
Washington, D. C.

Dear Doctor Warren:

While in Washington yesterday I learned from
Captain Draeger of the Naval Medical Research
Institute that there is to be another comb
blast in the near future.

Will it be possible for me, and also for Doctor
Dowdy in case he wishes, to witness this blast
as a representative of the NEPA Advisory Committee?
Any information that you can give us on this matter
will be greatly appreciated.

Cordially,

H. A. Seale
