MEMORANDUM

20 November 1950

**Dr. Lauren R. Donaldson
Director
The Applied Fisheries Laboratory
University of Washington
Seattle 5, Washington**

Dear Doctor Donaldson:

During your visit to Washington in November did you obtain the information about the movement of earth around the crater areas at the Kiviok Islands? I was under the impression that you talked with your friend in the AEC who was able to give you the information that you sought. If this is the case, I shall do nothing further on the matter unless I hear from you.

Sincerely yours,

Any information that you receive in this area will be
