Dr. Franklin G. Wolcott
Santa Fe Directed Operations
P. O. Box 159
Los Alamos, New Mexico

Dear Dr. Wolcott:

Conversations have been held with Captain James S. Russell of the Division of Military Applications in regard to a representative of the Division of Biology and Medicine participating in planning activities under AI Greaves for further tests. It is requested that you designate a member of your group at Los Alamos to serve as a representative of the Division of Biology and Medicine on this planning group which, I understand, is officially known as the Division. In conversations with Captain Russell, Mr. Greaves mentioned the name of Wright Langham.

After discussions with Dr. Shields Warren, it has been agreed that the scope of biological and medical activity in subsequent tests will be discussed at the meeting of the Advisory Committee for Biology and Medicine at Los Alamos in December.

Yours sincerely,

John E. Bowers, M. D.
Assistant to Director
and Chief of the Section
on Medicine, Division of
Biology and Medicine
