

DEFENSE NUCLEAR AGENCY
WASHINGTON, D.C. 20305

400647

LGEC

24 April 1979

SUBJECT: Areas of Concern - Enewetak Historical Project

Commander, Field Command
Defense Nuclear Agency
ATTN: LTC Burke, FCP
Kirtland AFB, New Mexico 87115

1. Background information on "Areas of Concern" expressed by Holmes & Narver, Inc. in their 28 March briefing on progress of the Enewetak Historical Project is provided as follows:

- Tab A - Question 1, Policy and Background of Crater as a Temporary Repository and Related Engineering.
- Tab B - Question 2, Purpose, Policy, and Background of Experimental Plantings on Enjebi
- Tab C - Question 4, Bair Committee

2. The above questions pertain to important subjects which should receive substantial coverage in the preparation of the project history. The information furnished herewith was extracted from files in this directorate and other readily available sources. Additional material which could contribute to a well balanced coverage should be obtained by the contractor from other participating agencies and interviews with knowledgeable personnel.

FOR THE DIRECTOR:

3 Enclosures
as stated

THOMAS P. JEFFERS
Director for Logistics
