

ENERGY RESEARCH AND  
DEVELOPMENT ADMINISTRATION

Assistant Administrator  
Environment and Safety

Bill Burr: It seems to me we need to here in on this problem rather sharply and confront the situation of whether we continue or not and come to a signed agreement with whomver needs to be signed on as to what we will and won't do and the conditions under which we will do it. If our people continue to get harassed there then we should put our position on the line to pull out and let them go their own way we do not need a continuing problem.

Jim Livingston 10/22/75

*please send me this  
W. J. ...*

*Patrick will  
bring up to 10/22  
on Monday 10/22*
