

March 1977

Modified Tentative LLL Workshop (6/27-29/77)

Mon. a.m.

- time(min.) 1. Overview of some problems in the Marshalls
- | | | |
|----|-----------------|--|
| 20 | a) Ted Mitchell | - Gen. intro. to problem |
| 20 | b) Joe Deal | - History of Bikinian Return |
| 45 | c) R. Ray | - Status to Two Atolls (include litigation by MLS and cleanup/rehab. activities) |

Coffee

- | | | |
|----|-----------------|---|
| 10 | d) Tommy McGraw | - Rad. Safe Surveillance and adequacy of Radiation Stds. |
| 10 | e) Tommy McGraw | - Describe Runit disposal plan by DNA |
| 10 | f) Vic Noshkin | - Critique Runit disposal plan by DNA |
| 45 | g) Bob Conard | - Biomed. survey history (include Bikinians increase in whole body Cs ¹³⁷ , TU in Urine and Uterik problems) |

Lunch

Mon. p.m. 2. Previous ERDA sponsored activities in the Marshalls

- | | | |
|----|-------------------------|---|
| 15 | a) Bob Buddemeier | - Water Lens Dynamic Study |
| 15 | b) D. Randall/A. Banner | - Ciguatera Disease Study |
| 15 | c) W. Jackson | - Runit Rat Study |
| 30 | d) Vic Noshkin | - RN geochemical cycling studies at Enewetak/Bikini |
| 15 | e) Bill Schell | - RN cycling studies at Bikini |

Coffee

- | | | |
|----|-----------------------------|---|
| 15 | f) Phil Helfrich/E. Reese | - MPML History role after resettlement |
| 15 | g) Nat Greenhouse/Jan Naidu | - Environmental monitoring for Rad. Safe Surveillance |
| 10 | h) Vic Nelson/Al Seymour | - Environmental monitoring for Rad. Safe Surveillance |
| 15 | i) Stan Cohen | - In vivo, whole body counting |
| 10 | j) Bill Robison | - Food Crop Studies |
| 20 | k) Bill Robison | - Dose assessment model (info needs) |

Tues a.m. 3. Pending Activities

- | | | |
|----|------------------------|---|
| 10 | a) Nat Greenhouse | - Resuspension studies |
| 10 | b) Joe Deal | - ARMS 13 atoll survey |
| 10 | c) Steve Smith | - Physical Oc. of Atolls |
| 10 | d) Tommy McGraw | - Possible Impacts of Copra production |
| 10 | e) Tommy McGraw/R. Ray | - Expanded information and education effort |
| 10 | f) Al Seymour | - Fish migration pattern studies |

5011230

Tues p.m. 4. Discussions - led by Bill Burr

a) What are the necessary program elements (within a limited budget) that insure adequate ERDA-AES information to advise DNA and DOI and the returning Marshallese properly during the cleanup and resettlement?

Wed. a.m.

b) What is the best AES organization that will maximize inter and intra ERDA coordination and cooperation?

c) What mechanisms are available to insure that the data used in dose assessment models are reliable and state of the art?

Adjourn-----

Advisors for LLL Workshop

NRC - Ed Held, Oliver Lynch
PNL - Bill Bair, Bill Templeton
DTO - Nat Barr, Joe Maher
HASL - John Harley, Jim McGlaughlin
ORNL - Chet Richmond
NAEG - Paul Dunaway
ANL - Phil Gustafson
UC-Davis - Auto Robie, Marve Goldman
U. Alaska - Bill Oogel
LASL - Wayne Hansen, Jack Healey
Airforce - Ed Still
NYU - Ed Wrenn
