Mr. Harry Hauck  
 Global Associates  
 Kwajalein Missile Range  
 APO San Francisco, California 96555

Dear Harry:

We are making plans for our September Hematological Survey. Bill and Peter will be arriving at Kwajalein on Sept. 10th. Sebjo Shoniber will also arrive from Majuro. They will be there until the LCU leaves for Utirik which is scheduled for Sept. 11th. They expect to be back around Sept. 25th for the Ebeye examinations.

We would again like to borrow a Movie Projector and two films. In addition, we will need gasoline, out board oil, extra plugs etc. for our whaler. Dr. Knudsen has probably already given you these requirements. We would also like to have our small generator checked-out for onloading by the 11th of Sept.

Bill Streenan will be sending along our BNL Boxes sometime in late August or early September.

There will be a few more items that will be needed and Bill will discuss these with you when he arrives. I may come out in early December to visit Eniwetok. I am happy you got the renewed contract. Thanks for your help.

Sincerely,

Robert A. Conard, M.D.
