OPERATIONS PLAN

MISSION NO. 7 FY 1979

RONGELAP, UTIRIK AND WOTJE

I. BACKGROUND AND PURPOSE

Brookhaven National Laboratory has conducted medical surveillance of Rongelap and Utirik persons who were exposed to fallout from the 1954 nuclear event Bravo. A control group of unexposed persons from Rongelap is also monitored and other island populations in the Northern Marshalls are checked from time to time for baseline data.

Additionally, DOE agreed in 1977 to assist the TTPI medical program with doctors and logistic support in providing general medical care to the residents of Rongelap and Utirik.

II. WORK TO BE PERFORMED

Supported by R.V. Liktanur II, a group of ten U.S. and TTPI medical specialists will provide pediatric care to the children of Rongelap, Utirik and Wotje. Additionally, a general sick call will be held on these islands. Rongelap and Utirik persons on Ebeye and Majuro will also be examined and afforded a sick call as well as the Bikinians living on Majuro. The medical team will also examine those persons who were not available during the February trip.

III. RESPONSIBILITIES

The Party Chief for the medical program is Dr. Hugh S. Pratt, BNL. Mr. Wayne Munk, H&N/PTD will serve as the logistics support coordinator between U.S. Oceanography and the Party Chief.
