FOLDER 01 Thru 09/1977

Dear Bill:

The following list of personnel will be participating in our environmental survey of the Northern Marshall Islands during the month of October.

Name	SSN	Arrival at HNL	Excess Baggage on MAC
Nathaniel A. Greenhouse Jr.	578-54-1121	October 1	yes
Robert W. Sherwin Jr.	003-38-8713	September 30	yes
Robert W. Dillingham	077-07-9171	September 30	yes
Gerald S. Levine	106-58-1685	October 2	yes
Dominic (NMI) DeAngelis	121-24-7425	September 30	yes
Florence T. Cua (Ms. Cua is a Philippine National)	106-58-1685	September 30	no

Our party would like accomodations at one of the outrigger hotels in Waikiki, and reservations on October 3 MAC flight to Kwajalein. If there are no changes in the schedule, we will return to Honolulu via MAC on October 31, and will require overnight accomodations on that date.

During this trip, we would like to arrange for five or six Marshallese residents at Utirik, Rongelap and Bikini to reside on the LCU for ~5 days while we are on station at each island so that we can collect urine samples under controlled conditions for plutonium bioassay. I am proposing that we provide meals and bunk accomodations on the LCU in return for their cooperation. If this requires advance clearance from PASO or the TT, I would appreciate you making the necessary arrangements.
