Kwajalein 7/9/77

Trip report, RV Liktangur 6/16 - 6/27 1977

The participants from TT Health Services, Majuro arrived on Kwajalein 6/14 and were accommodated here. Trust Territory TA's were issued by Mr. Ownbey, TT liaison officer here.

Mrs. Sulikao Ebedei joined the party on Ebeye 6/16. She is a TT employe and I have asked Distad rep Ebeye to issue TA for her in order to settle the accounts.

Mr. Jabwe Jorju was hired specifically for this trip. He is not a TT employe. His mess bills should be charged to our account. I paid him \$10.- a day for his services and shall include the amount on my next expense voucher.

Two patients, and were returned to Rongelap from Ebeye. Their mess bill should be charged to our account.

Liv Knudsen was sick and was unable to join us on This trip.

On the return voyage we brought 3 teachers from Rongelap and 2 teachers from Bikini, at the request of Distad Marshalls. Their mess bills should presumably be sent to Distad for collection.

The trip was uneventful. The sick calls and public health programs scheduled for Rongelap and Bikini were successfully completed.

I am grateful to the ERDA office in Honolulu for their help in purchasing and sending me the Polio vaccines used in the immunization program.

Captain and crew on the ship were extremely helpful and pleasant, helping to make this trip one of the most successful and enjoyable to date.

Sulikao and Jobwe left the ship on Ebeye on 6/27.

The Majuro participants stayed on Kwajalein until 6/29; we were unable to get seats for them on the 6/27 flight to Majuro. I am grateful to KMR for the courtesies (lodging, dining, shopping) extended to these participants.

Mr. Ted Murawski assisted in all the preparations with usual flair and competence.
