BLOOD SAMPLE SHIPMENTS

Dear Mr. Tapia:

This will advise you of the many unscheduled shipments of NON-INFECTIOUS human blood samples from Kwajalein, M. I., marked for Holmes & Narver, Inc., PTD, for transshipment to USERDA Agencies at Oak Ridge, Tennessee, the department of Human Genetics, University of Washington, and others at times.

By copy of this letter we are informing the shipper at Kwajalein, M. I., to clearly mark on the packages - "HUMAN BLOOD SAMPLES" - "NON-INFECTIOUS".

I sincerely hope that the previous methods of handling the shipments of blood samples has not inconvenienced your service. Perhaps this clarification will resolve the questions which you have called to our attention.

Your continued interest and support are greatly appreciated.

Sincerely,

Original Signed by
 R. L. Marchand
