Dear Dr. Warren:

Here is a review of the Bio. medical program which I prepared after looking thru your files & discussion with George McKay. You can see that it is not entirely complete & I will be glad to finish it up after further discussion with Langham & Graves. You asked me to look into what Jim Cooney is doing but I have held off until I can ~~talk~~ talk with you about the exact type of information you want. I spoke to Jim about this & (he seemed to be slightly miffed about my reviewing his program.) I will call you later this week to ^{ask} about the radiological safety program and to ask whether you want to discuss the enclosed report in further detail. Also I have heard that I have been appointed to Jim Cooney's staff & would like to ask you about this

As ever

Lewis
