President, Junta de Energia Nuclear
Avenida Complutense 22
Madrid 3, Spain

403317

Dear Professor Otero:

This is in reply to your letter of December 29 to Dr. Schlesinger concerning our cooperative biomedical research program. We are pleased that the revised surveys and modifications of equipment planned for 1972 apparently were successful and that the surveillance and other studies progressed well.

We appreciate your interest in being able to renew and improve materials during this year. Accordingly, the USAEC is pleased to agree to an extension of support for calendar year 1973. In this regard, we have authorized additional funds at the same level of support (\$25,000) through the American Embassy in Madrid.

With kind regards,

Sincerely,

J. J. Flaherty
Assistant General Manager
for Energy & Development Programs
