ACT

My dear Colonel Warren,

In response to your request of yesterday, Dr. Mann of WHARTON made a blood corpuscle count on me last night. He advises me that my white blood corpuscle count was 7400 and 8100 and that the differential was normal.

I assume that this closes the matter which we discussed Saturday, or if not that you will inform me further.

Yours sincerely,

Captain, U.S. Navy.

From: Radsafe (Haven)  
To : USS Wharten

Pass to Captain Reference your letter of  
4 August affirmative. DeLorimier sends for Warren.

Colonel Warren, USA  
U.S.S. HAVEN.
