1. Have urine samples collected within three (3) days of individual's return to San Diego.
2. Samples must be collected in plastic bottles.
3. Samples must be taken for a minimum of 24 hours.
4. Minimum volume is one (1) liter. However, if this volume is attained in less than 24 hours, continue collecting for the minimum time.
5. Securely seal lids, package and ship to:

USAF Medical Center
USAF Radiological Laboratory (AFLC)
Wright Patterson AFB, Ohio 45433

6. Include letter that samples are post-employment samples and that results are to be sent to:

Commander
HQ, Joint Task Group
Enewetak Atoll
ATTN: FCRR
APO SF 96333

7. Identify each sample with the name and SSN of the individual.
