REQUEST FOR LOAN OF FILM DOSIMETERS

SYMBOL: RLR:RLB

I have been advised by the NBS that the Neutronics Branch of Evans Signal Laboratory wants to "borrow" 200 complete film dosimeters. A Mr. R. G. Lerrick from Evans will contact us directly regarding the loan. We do not at present know how the dosimeters will be used by ESL, but I assume they will be used at Castle.

I have recommended to Mr. Armstrong that we comply with this request unless you foresee other urgent requirements for these dosimeters. Let us make sure that there are a sufficient number of dosimeters remaining for possible neutron sensitivity and gamma radiation attenuation studies.

cc: W. T. Armstrong
H. C. Brown
