Dear Admiral Stump:

Attached herewith is a report of Mr. Merrill Eisenbud which details our understanding of the arrangements made with you in his conference of July 24 and 25 concerning fallout monitoring in the Pacific Area for Operation CASTLE.

The plan is appreciably more extensive than for Operation IVY and reflects the more extended series of detonations planned for CASTLE and the desire for more complete documentation of the entire Pacific region.

I wish to commend the work of Commander C. R. Deller, Jr. of your staff who has so effectively visualized the operational problems of this program and developed the details of Naval participation.

Sincerely yours,

John C. Bugher, M.D.
Director
Division of Biology and Medicine
