Dear General Glarksons

be especially pertinent to the documentation of the fallout for CINCPAC. In view of these circumstances, it would appear that Mr. Eisenbud's direction of his program would be more effective if he were stationed on your flagship where he could work in close cooperation with your RadSafe organization and at the same time have prompt access to essential operational information.

radiation survey instruments. The information abtained by these survey instruments will supplement that of your own RadSafe arganisation and will

In view of CIHCPAC's direct interest in this part of the fallout program, I have written the enclosed note suggesting that Admiral Radford's office raise the question with you as to the possibility of billsting Mr. Misenbud on the flagship. I am aware of the severe limitation on the number of possible places, and do not wish to urge unduly this addition of another person to an already overcrowded ship's company.

I am looking forward to the pleasure of joining you at an early date. I will leave Washington on October 23 for a HATS flight out of Travis Field.

Sincerely yours,
