Dear Admiral Denfeld:

I have received a copy of a teletype from COMNAVFORC
TOCNAV to CINCPAC of 21 June, 1949, requesting \$10,000
to accomplish additional work required on LAM-109A.

You were requested by Captain Russell's letter of
April 29, 1949, to provide Navy support for the recovery
on Bikini and Eniwetok Atolls and provide ship support,
including the provision of a modified LAM for the
expedition's use. The \$10,000 requested appears con-
sistent with the agreement between the Navy Department
and the Atomic Energy Commission. I have, therefore,
authorized payment of the Standard Form 1080 submitted
by the Navy Department for this purpose.

Sincerely yours,

Holden Warren, U.S.
Director
Division of Biology
and Medicine
