Lt. Colonel William R. Sturges, Jr. USAF  
Chief, Test Branch  
Division of Military Application  
Paul B. Pearson  
Chief, Biology Branch  
Division of Biology and Medicine  
RESURVEY OF BIKINI  
BMB:PEP

May 23, 1952

R

SYNCL:

We have carefully considered the exchange of correspondence and file regarding the return of the natives to Bikini. We consider that at present there would be no hazard from residual radiation to the natives if they were returned to Bikini now. It is recognized that this situation could be altered during the course of the next six or seven months. We would, therefore, wish to make a resurvey of Bikini the latter part of 1952 or early in 1953.

If required, a survey of Bikini could be made at this time, but it is felt that a resurvey would need to be made at a latter date as indicated above.
