Mr. E. R. Laymen
Alternate Personnel Director
University of California
Los Alamos Scientific Laboratory
P. O. Box 1663
Los Alamos, New Mexico 87544

Dear Ed:

Many thanks for your letter and I am happy to know that some of the fellows will be coming over this fall, although we wish you would be able to come.

I am sure there will be no problem at all about the arrangements being renewed between the Lab and the Straub Clinic as we have done in the past. Armand Kelly stopped by when he was here the last time and had the pertinent information concerning the people who are coming and their coverage and I am sure that is all we will need. Dr. Luke is no longer with us, but our surgical department is well-equipped to handle the details of the workmen's compensation problems. Most of us do know Mr. Loo of Alexander & Baldwin and there should be no problems at all from that viewpoint.

When Dr. Shipman was here last time he mentioned something about wanting me to become the local representative and replace one of the men in town here that he was not too happy with. I wrote Tom back telling him I would be glad to do this, and if he needed any information to get my PSQ up to date for clearance, I could forward this to him. As far as I know my clearance was still active on the Q level in 1964 and there should be no problem if Tom would like me to do this. Let me know when you write back if there is any information you need or, if you want another form filled out, I will be glad to do it for you.

Give our best regards to Francis and the kids, and Betty and I will miss you. If there is anything at all we can personally do for any of you, please let us know. We look forward to seeing Armand and John Cole for lunch one day at the Clinic as soon as they get in town.

Sincerely,

*Alston**Bill*

W. J. Natoli, M.D., F.A.C.S.
