SUBJECT: PHASE-OUT OF PERSONNEL FROM ENIWETOK ATOLL PRIOR TO EVACUATION
FOR MIKE SHOT

Only those persons whose presence is an operational necessity after Mike Shot will be retained in the Eniwetok Area during the ship-board evacuation and re-entry.

You are requested to review your personnel roster carefully and plan to release as many persons as possible by M-5 or earlier. The following principles should be kept in mind:

1. All persons who are required only for the installation and testing of equipment for the Mike Test should be released. Retain only those needed for data recovery and for King Shot.
2. Persons who must be kept available in case of breakdown or other difficulties arising out of postponement, weather, King installation damage, etc., but who need not be immediately available, should be sent to Honolulu to stand by until it is determined that they may proceed to the ZI. If necessary for them to return to Eniwetok, transportation will be provided with whatever priority is required. This Headquarters is investigating the possibility of obtaining quarters for stand-by personnel in Honolulu, and information on the number of billets needed should be submitted as soon as possible.
3. The shipboard evacuation period will be crowded and uncomfortable. Most persons will be quartered in troop space on board a military transport vessel.

After rosters have been reviewed as suggested above this Headquarters should be advised:

1. The names of persons who must be retained at Eniwetok through the evacuation.

This material contains information affecting the national defense of the United States within the meaning of the espionage laws Title 18, U.S.C. Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited by law.

Classification changed to UNCLASSIFIED by authority of the U.S. FRDA
