Dr. Harold H. Plough
P. O. Box 343
Woods Hole, Massachusetts

Dear Harold:

Enclosed is an outline of possible biomedical tests for you to look over. What is needed now is more detailed information of the experiment as to the exact procedures, number of animals, and personnel to be involved. If you can furnish this for any of the programs listed, it would expedite the planning to have the details sent to you now rather than wait until some time in September.

Sincerely,

N. Edward Tolbert
Biochemist, Biology Branch
Division of Biology and Medicine
