

Office Memorandum • UNITED STATES GOVERNMENT

TO : Dr. Shields Warren

404810

DATE: June 6, 1949

FROM : Dr. G. V. LeRoy

SUBJECT: Biologic studies with future proof tests.

1. To date proposals for biologic studies in connection with future proof tests have been received from the following:

- (1) National Military Establishment
- (2) University of Rochester
- (3) University of Chicago, Institute of Radiobiology
- (4) Oak Ridge National Laboratory
- (5) Hanford Engineer Works

Additional proposals are being prepared and are expected from:

- (6) Argonne National Laboratory
- (7) University of California Radiation Laboratory

Negative replies have been received from:

- (8) New York Area Operations
- (9) Brookhaven National Laboratory

BEST COPY AVAILABLE

2. The character of the proposals submitted is not so specific, as that desired by Mr. Alvin C. Graves, and in general, details are lacking as to personnel required, specific construction and other facilities required, type and number of animals to be used, and special measurements required.

3. It is suggested that as each project is approved an urgent letter shall be sent to the proposer asking for these additional details. This will permit the committee to prepare a complete protocol for transmission to Mr. Graves.

4. It is also suggested that each proposer be asked to specify the equipment he is prepared to transport to Eniwetok; and to estimate the cost of his project. A statement should be requested indicating the amount of money that his institution is prepared to budget for the test.

5. Attached please find a summary of the proposals submitted which the ad hoc Committee will consider.

Respectfully submitted

G. V. LeRoy
G. V. LeRoy, M. D., Chairman
Ad Hoc Committee
