HEADQUARTERS
AIR RESEARCH AND DEVELOPMENT COMMAND
BALTIMORE 1, MARYLAND

16 April 1953

John C. Bugher, M. D., Director
Division of Biology and Medicine
Atomic Energy Commission
Washington 25, D. C.

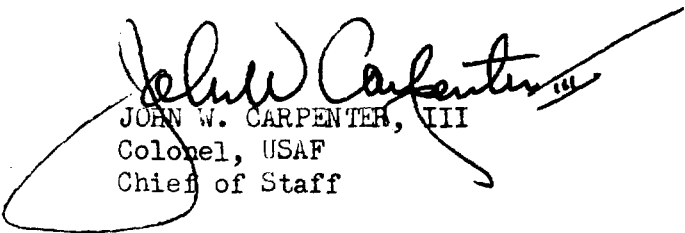

Dear Dr. Bugher:

Your letter of 9 April concerning the participation of Colonel George Taylor as a member of a task group has been received in this Headquarters during the absence of General Partridge.

We are most interested in the objective of the project and you may be assured of our wholehearted cooperation wherever possible.

Colonel Taylor is the Commanding Officer, 4th Weather Group and although his station is here in Baltimore, he is not assigned to this Command. We, of course, could make no commitment as to his participation. The 4th Weather Group is assigned to the Air Weather Service, Washington 25, D. C., and I suggest that you address your request to Major General William O. Senter, who is Commanding General of that organization.

Sincerely,

JOHN W. CARPENTER, III
Colonel, USAF
Chief of Staff
