REVISION OF "RADICAL ASPECTS OF ATOMIC WEAPONS"

SYMBOL: AEC:em

The revisions to the subject publication proposed in your memo of July 19, 1950 have been approved by the appropriate Atomic Energy Commission personnel and by the Department of Defense.

In addition, there are several minor textual revisions which we wish to have included in the edition about to be printed. These appear at pages 3, 9, 15, 16, 17, 20, 21, 22, and 24, as indicated in the conformed copy attached hereto, and were discussed by Dr. Hardie of this Division and Dr. Anderson, NSRB this morning by telephone. Also, it is suggested that you may wish to change the notation on the inside cover to reflect Mr. Symington's Chairmanship. It is felt that the date of this revision should be included; also a footnote at page 3 to indicate the scheduled publication of "The Effects of Atomic Weapons."

My apologies for the untidy condition of the worked-over pamphlet; in the interest of haste I am sending it on, as is.

It would be appreciated if you would arrange for the AEC to receive 250 copies of the reprinted pamphlet.

Enclosure
"Radical Aspects of Atomic Weapons"
