BEST COPY AVAILABLE

Dear Bill:

In response to your letter of October 15, 1953 I am sending you copies of the following material which I think pretty well outlines the situation regarding the fallout problem as related to livestock:

1. Memorandum regarding damage to Stewart Brothers horses.
2. Memorandum regarding damage to Stewart Brothers cattle.
3. Tentative draft of the Information Paper to the Commission.
4. Slides showing affected sheep.

You probably know that the Commission has settled with Stewart Brothers for the horses. We paid approximately \$300 per head for 16 horses. The information paper for the Commission is in draft form and should be treated CONFIDENTIALLY.

I presume that you have copies of the map showing the location of the various herds of sheep so I am not enclosing this as Appendix "A". The colored photographs of the sheep are the same as the slides I am enclosing. I do not have extra copies of the calculations made by Gordon Dunning so am not enclosing Appendix "C". But I assume that you would not have use for going through the details of these calculations.

Sincerely yours,

B-103
