Dr. Shields Warren
Director
Division of Biology and Medicine
U.S. Atomic Energy Commission
Washington 25
D.C.

Dear Sir:

The vast Pacific commercial fishing industry is naturally interested on whether the Bikini tests had any marked effect on fish schools or the plankton, etc. on which they feed. Neither Washington or Ottawa released any such reports. The attached letter explains itself. I might add that Dr. Neal Carter, Director, Pacific Fisheries Experimental Station here at Vancouver is also interested in any data you may have or feel free to release at this time.

With kind regards

S. H. Cooke Editor
