Dr. Lee Farr
Chairman, Medical Division
Brookhaven National Laboratory
Upton, L. I., New York

Gentlemen:

We have been advised by Colonel Flickinger of Air Research and Development Command, Baltimore that Lt. Richard K. Miller, USAF (MS) has been designated as the Air Force Medical Liaison and Coordinating Officer for the ANP Project. Lt. Miller is assigned to the Aero Medical Laboratory, Wright Air Development Center, Wright-Patterson Air Force Base, Ohio. Lt. Miller's duties will consist mainly of evaluating and coordinating the USAF bio-medical research programs in support of the ANP Project.

We are advised by Colonel Flickinger that Lt. Miller will have top secret and Q clearance.

It is anticipated that Lt. Miller will have occasion to visit the Brookhaven National Laboratory in connection with his duties as Liaison Officer. We would appreciate it if you would extend to Lt. Miller the courtesies of the Laboratory so as to enable him to become familiar with the various aspects of ANP Project.

Sincerely yours,
