Mr. W. J. Stanley  
 Director  
 Department of Energy  
 Pacific Area Support Office  
 P. O. Box 29939  
 Honolulu, HI 96820

Dear Bill:

The following are the requirements for our upcoming trip to Enewetek scheduled for 17-27 Oct. 1979.

Rodney J. Eagle and James L. Brunk require MAC reservations to Kwajalein on 15 Oct. 1979, room reservations at Honolulu for the evening of 14 Oct., and transportation at Honolulu. Rod and Jim will load the ship with our gear and will require rooms at Kwajalein on 15 and 16 October. On Wednesday, 17 Oct., they will depart Kwajalein on the MAC flight to Enewetek. Reservations for Rod and Jim on this flight are requested as are room reservations at Enewetek for the 17th and 18th.

Kai Wong, Terry Jokela, and Ken Marsh will fly to Enewetek on the 19 Oct. MAC flight. These individuals require room reservations for 18 Oct. at Honolulu, MAC reservations for the 19th and transportation in Honolulu.

The Liktanur should plan to be at Enewetek before the arrival of the 19 Oct. MAC flight. All five scientists will join the ship on the 19th and begin the sampling program.

For this trip we require the laboratory trailer onboard the Liktanur. The trailer should have connected running water, 110V-AC supply, and be air conditioned.

A truck will be required both on Janet and Yvonne. If Enewetek is unable to supply us with some form of transportation on the islands, it will be necessary to take either the mule or the jeep and necessary ramps from Kwajalein on the Liktanur to support our work on the island.

In addition to ground water sampling at Janet and Yvonne, we plan some minimal amount of work in the lagoon. The program should be completed by the evening of 25 Oct. and the entire party will fly to Kwajalein on the 26 Oct. MAC flight; overnight at Kwajalein, and depart for Honolulu on the 27 Oct. MAC flight. They will require reservations for these flights and rooms at the Airport Ramada Inn for the evening of 27 Oct. 1979.

PRIVACY ACT MATERIAL REMOVED

The following information is provided for the LLL scientists participating on the cruise:

<u>NAME</u>	<u>SOCIAL SECURITY #</u>	<u>CLEARANCE #</u>
BRUNK, James L.		
EAGLE, Rodney J.		
JOKELA, Terrance A.		
MARSH, Kenneth V.		
WONG, Kai M.		

Thank you for your attention to these matters.

Sincerely,

Victor E. Noshkin, Ph.D.  
Aquatic Sciences Section  
Environmental Sciences Division
