 Upton, Long Island, New York 11973

Dear Bob:

This is in response to your letter of September 15, 1967, regarding a liaison officer to help with your program. I too was very sorry to have Neil Rasmussen leave my organization since I agree he did a very excellent job. However, Neil had an opportunity for a promotion and I could not in good conscience stand in his way since such an opportunity for him was very unlikely within the AEC organization. He is now working for NASA in their Sacramento, California office.

William K. Streenan (we call him Bill) has taken Rasmussen's place in my office and will be your chief contact. Bill Streenan worked for AEC in Honolulu about two years ago and then transferred to the AEC Idaho office. By reason of his previous tour of duty out here, he is somewhat familiar with your program. I have asked him to thoroughly review Rasmussen's file in this regard and also to take a trip to the western islands to become personally acquainted with the Trust Territory and Global contacts out there. Any suggestions from you as to how Streenan might become better oriented toward your program will be appreciated.

Although we will miss Neil, you may be assured that all of us in my office will continue to do our best to serve your program as well as has been done in the past.

Sincerely,
 ORIGINAL SIGNED BY
