I realize that you will be in a somewhat difficult position without the services of a typist and without an office but assume that these will not be insurmountable obstacles.

We assume that your present residence is Honolulu and that you will receive per diem only for the period during which we are on the field trip.

I will let you know as soon as the dates for the survey are firm. In the meantime, I hope you are in agreement with the present arrangement.

Sincerely yours,

Edward E. Bold
