

TO: W. A. BONNET
FROM: R. E. MILLER

Reference Twx Bonnet to Cluff dated March 24, 1970, Symbol EP-237.

On March 27 I telephoned Dr. Barr, Deputy Director, Div. of Biology and Medicine, concerning the request of High Commissioner Johnston for guidance in rehabilitation of the Peter-Oboe-Tare complex at Bikini. During our discussion I dictated the referenced twx to his secretary for his information and record. Dr. Barr informs me that DBM would review the original correspondence on the subject, generate guidance to Commissioner Johnston in the required time frame and inform NVOO concerning details.

Dictated by phone - ^{FRANK CLUFF}~~John Cummins~~ to S. Krieger
