Captain Wilbur E. Kellum (MC) USN  
Naval Medical Research Institute  
National Naval Medical Center  
Bethesda 14, Maryland

Dear Captain Kellum:

The Division of Biology and Medicine is holding an informal conference at 9:30 A.M. Friday, February 20, in Room 1201, Atomic Energy Commission East Building, the subject of which will be infection and immunity as factors in the reaction to whole body irradiation. Since Commander E. P. Cronkite of your staff has been actively engaged in this phase of research, his presence at the meeting would be most helpful.

I shall appreciate your extending this invitation to Commander Cronkite, and also advising us of his ability to attend the meeting.

Sincerely yours,

John C. Bugher, M. D.  
Director  
Division of Biology and Medicine
