Same letter sent to those shown on attached list

Dr. I. L. Shechmeister
Department of Bacteriology and Immunology
School of Medicine
Washington University
St. Louis 10, Missouri

Dear Doctor Shechmeister:

We are hoping to have a small (informal) conference on infection and immunity as factors in the reaction to whole-body irradiation, and would like to invite your participation.

The meeting is to be held at the Atomic Energy Commission East Building at 16th Street and Constitution Avenue, Washington, D. C. A tentatively suggested time is 9:30 AM, Friday, February 20, 1953. Please let me know at your earliest convenience whether you would be willing to take part in this discussion, and whether the suggested date would be agreeable.

Sincerely yours,
