Dear Doctor Jawetz:

We are hoping to have a small (informal) conference on infection and immunity as factors in the reaction to whole-body irradiation, and would like to invite your participation.

Dr. C. Philip Miller of Chicago suggested that you might be interested in attending, and perhaps in contributing to, the discussion. If so, we will be happy to extend an invitational travel order to defray the expenses of transportation.

The meeting is to be held at the Atomic Energy Commission East Building at 16th Street and Constitution Avenue, N. W., Washington, D. C. A tentatively suggested time is 9:30 AM, Friday, February 20, 1953. Please let me know at your earliest convenience whether you would be willing to take part in this discussion, and whether the suggested date would be agreeable.

Sincerely yours,

Paul G. Lefevre
 Assistant to Chief (Research)
 Medical Branch
 Division of Biology and Medicine
