RE: ELECTRICAL SERVICE FOR BLDG. #413

DATE: 1 AUGUST 1953

- Ref.: 1. 3230-EE-6, Pwr, Dist., Area 10
- 2. 3285-EE-3, Elec Plan, Bldg. #413

The electrical service for Building #413 is being installed to pole F9 as shown on Reference 2.

Reference 1 shows the electrical service for Building #413 from pole F8 with a span of 3 # 8 between pole F8 and F9. This should be removed from the drawing.

Please add a detail to Reference 2 showing the installation of multi-breaker panel and main switch. If the service equipment is not dust- and water-tight it is suggested that the equipment be enclosed in a wood cabinet with a heater or a 100 watt lamp to lower the humidity.
