SUBJECT: ~~DECONTAMINATION PROGRAM, SITE URSULA~~

Reference is made to your MAIL #1271 with regard to subject program.

With the arrival of trucks, tractors and scrapers from Site Tare, which were off-loaded at Elnor on February 16, 1953, given a maintenance overhaul on February 17th and 18th and shipped to Ursula on February 19th and 20th, 21st, I can assure you that the portions of the program that have been lagging will be back on schedule.

All Holmes and Narver personnel have been directed to carry out the recommendations of the RadSafe representative at the site.
